Dear Dan,

Thank you once again for adapting your presentation to fit our needs and time frame.

I have had so much positive feedback from the staff regarding your seminar. Everyone appreciated the fact that you were easy to relate to and that the material was relevant to our needs. Of course the drums were also a big hit! We held a staff meeting on Friday as a follow up to the seminar to talk about any issues that had come up afterwards. Some good discussions resulted that I doubt would have happened before your visit.

Best wishes for the continued success of your business and please do not hesitate to contact me if a reference from myself and USA Basketball would be helpful to you.

Sincerely,
